S.A.F.E. Delivers Custom EC145 Specific Maintenance Stands to Riverside County Sheriff

S.A.F.E. Structure Designs is pleased to announce the delivery of a custom EC145 maintenance stand set to the Riverside County Sheriff's Aviation Unit. This maintenance stand set is specific for the EC145 allowing access to all the components for routine and major maintenance. These stands are lightweight and easy to move around. The custom design provides plenty of space on the work platform increasing both safety and efficiency for the maintenance staff.

The SAFETY FIRST ergonomic stands allow technicians SAFE access to perform maintenance on the engines, transmission, and rotor systems of their EC145 aircraft. S.A.F.E. previously provided Riverside County with universal stands for routine maintenance on all their aircraft. The new custom stands will allow more efficient access for performing major maintenance on the EC145. www.SAFE-2.com offers universal and custom maintenance support equipment to fit the individual needs of every customer.

"The entire team at Riverside County Sheriff's Aviation Unit is phenomenal." said Johnny Buscema, S.A.F.E. CEO. "When we showed up to deliver the stands, they surprised us with a helicopter flight. With that, how can we not love working with them! I was highly impressed with the level of talent, skill set, and attention to safety exhibited by their pilots and maintenance technicians. We are blessed to be part of their team."

S.A.F.E. Structure Designs is the global leader in maintenance support equipment that strives to put safety first. S.A.F.E. listens to the needs of the maintenance teams and designs custom equipment to the exact specifications that consider realistic ergonomic factors as well as efficiency. S.A.F.E provides the answers to the unique challenges of working on complex aircraft.
