FOR IMMEDIATE RELEASE

ARGUS International Inc., and AirNav Systems Announce Strategic Partnership and Collaboration

Greenwood Village – May 25, 2020

ARGUS International, Inc., the global leader in specialized aviation services, is pleased to announce the selection of AirNav Systems to provide global flight and ground aircraft tracking services. The partnership between ARGUS - TRAQPak, and AirNav delivers the next generation in aviation market intelligence.

Using realtime and historical flight tracking data, TRAQPak provides the most targeted and strategic information available. The TRAQPak and AirNav alliance makes TRAQPak a single-source for ground aircraft tracking including gate-to-gate, real-time ADS-B, FAA SWIM, and EUROCONTROL data coverage. Additionally, aviation professionals can now receive enhanced Intercontinental, European, US, Canadian and Caribbean coverage, resulting in the best in web-based market analysis and flight tracking to analyze current and historical aircraft activity trends.

"The accuracy of TRAQPak’s proprietary data, combined with AirNav’s global ADS-B network will provide a more comprehensive view into new markets for TRAQPak and enhance our visibility into existing markets", said Joe Moeggenberg, CEO of ARGUS International, Inc. “This new collaboration ensures the industry’s best live flight activity tracking program just got better with AirNav data.”

The AirNav System has an extensive history of developing and producing software for the aviation industry. Their comprehensive real-time flight tracking and monitoring systems are used by over 25,000 airports, aviation professionals, and aircraft enthusiasts throughout 170 different countries.

Andre Brandao, CEO/Founder of AirNav Systems, added, “The services that make both organizations exceptional individually are a perfect match and set the stage for a long-term and fruitful collaboration.”
