IBC Airways selects Becker ADS-B transponder

January 20, 2020 - Miramar, FL

IBC Airways has selected Becker Avionics’ BXT6500 series ADS-B transponder for retrofit of their SAAB340 fleet of airplanes. IBC Airways is an FAA FAR Part 135 certificated air carrier based at Miami International Airport focusing on reliable, cost-effective air transportation service to and from the Caribbean, Latin America and the US.

Director of Maintenance, Paul Diaz commented, “Becker Avionics provided the best value ADS-B upgrade package for our fleet of SAAB340 aircraft. Becker’s BXT6500 ADS-B transponder was easy to integrate into our aircraft and required minimal modifications. Becker’s onsite product support team was professional and effective.”

The BXT6500 transponder series is a robust, cost-effective and ADS-B compliant transponder that combines unique customer benefits, such as reduced size and weight, durable housing without ventilation slots or forced cooling, antenna diversity or single antenna configurations, digital interfaces, TCAS compatibility and special mission capabilities.

About Becker Avionics

Becker is a leader in digital avionics technology, setting the standard in customer-centric, state-of-the-art ground and airborne solutions. Becker’s focus is on meeting individual requirements with the highest commitment to quality and customer satisfaction, no matter what the mission.
