

EMBARGOED UNTIL JANUARY 28, 2020

AEM Caution Warning Panel Selected for Enstrom 480B

Kelowna, BC, January 28, 2020 – Enstrom Helicopter Corporation (Enstrom) selected Anodyne Electronics Manufacturing Corporation (AEM) to design and manufacture the new Master Caution Annunciator Panel for their flagship aircraft, the 480B helicopter, with the first completed aircraft to be delivered later this year.

Steve Broderick, Distribution and Business Development representative for AEM, recognized that Enstrom's 480B project was perfectly suited to AEM's capabilities. "Redesigning a Caution Warning Panel is not a small undertaking" explained Broderick. "AEM specializes in these next-generation annunciator panels; our design and manufacturing teams are leading experts in this area, and nobody builds a more efficient or reliable product on the market today."

Having previously utilized their loudspeaker and illuminated panel products, Enstrom knew that AEM's performance, design and manufacturing quality is best-in-class. "When we needed a custom solution for our 480B Master Caution Annunciator Panel, AEM was our top choice" said Bill Taylor, Director of Engineering at Enstrom. "The performance, design, and manufacturing quality of AEM products has always been top-notch... their crew has always been professional, helpful, and ready to jump in and get the project done."

AEM and Enstrom will be exhibiting at 2020 HAI Heli-Expo in Anaheim January 28-30 at booths #231 and #2904 respectively.

###

About AEM Corp.:

Anodyne Electronics Manufacturing Corp. is a leader in the design, development and manufacture of aircraft communication systems, loudspeaker systems, caution/warning panels and illuminated panel products. AEM also offers design and manufacturing services to other companies, providing solutions for reduced operational costs and giving those companies the ability to focus on their core businesses. AEM is a Transport Canada approved manufacturer and maintenance organization, holds EASA Part 145 Maintenance approval, and is ISO9001/AS9100D registered. (aem-corp.com). AEM is a wholly owned subsidiary of SMS Canada Corp, part of the Structural Monitoring Systems plc (ASX Code: SMN) companies (smsystems.com.au).

About Enstrom Helicopter Corporation:

Enstrom Helicopter Corporation designs, fabricates, assembles, and tests a full line of light single piston and turbine engine helicopters for training, executive transport, and commercial operations in the global market. Enstrom has been manufacturing helicopters for over 60 years. Our mission is to deliver the safest and best-supported helicopters in the world. Enstrom is a wholly owned subsidiary of Chongqing General Aviation Group (CGAG) and is located in Menominee, Michigan. (enstromhelicopter.com).
