FOR IMMEDIATE RELEASE

TRAKKA SYSTEMS ANNOUNCES SELECTION FOR BOTSWANA POLICE ENSTROM 480B

Moorabbin, Australia – May 12, 2020 -- Trakka Systems is pleased to announce that it has been selected, through its local representative SAFOMAR, for the installation of A800 searchlights and TC-300S multi sensor cameras onto the new Botswana Police Enstrom 480B Helicopters.

The Botswana Police Air Support division chose Trakka’s range of products following a thorough examination of our Total Solution offerings, followed by a lengthy and detailed tender and acquisition process. “Our one stop turnkey solution, ease of acquisition and support capability were the main factors for the selection of the of the Trakka proposal.”

Once in service, the upgraded Enstrom 480Bs will be used for crime prevention, wildlife conservation, command & control and search and rescue.
About SAFOMAR

Safomar Aviation (Pty) Ltd was established in 1987 and has continued to support the aviation industry in South Africa and various sub-Saharan African countries. It specialises in supporting its customers in the aviation industry – both Operators and Maintenance Facilities – by providing them with world-class products and services that add to their performance and success. Safomar’s solutions are specifically tailored to suit its customer’s business model. This is based on Safomar’s belief in providing a bespoke solution to each and every customer, as to better cater for the uniqueness that exists within every business and organisation. Safomar takes great pride in its thoroughness and stakes its reputation on its attention to detail and its ability to manage the most complex of projects and logistical requirements. http://www.safomaraviation.co.za.
