**COURSE OBJECTIVES:** This course is designed to provide instruction to prevent and deter illegal “sideshows”, street racing and intersection takeovers. Instruction covers every facet of sideshow enforcement to include: Dangers of sideshows, their evolution to what they have become today, tactics and failed tactics previously attempted, officer safety in enforcement, proven tactics in shutting down and deterring sideshows, legal implications, and establishing local ordinances and prosecution of arrests and citations.

Students will receive instruction from Instructors Nick Byrd and Kris Kubasta, who pioneered effective strategies in successfully addressing sideshows and intersection takeovers from their own experience with their own agency. **Maximum enrollment: 65**

**INTENDED AUDIENCE:** Sideshow Enforcement is recommended for current airborne law enforcement officers and units, patrol officers, commanders, and special operations personnel that may be tasked with enforcement at sideshow events.
