

MD HELICOPTERS SECURES \$43.9 MILLION IN ARMY CONTRACTS

Mesa, Ariz., June 14, 2021 – [MD Helicopters, Inc.](#) (MDHI) announces two independent contract awards worth \$43.9 million from Army Contracting Command-Redstone supporting the Afghan Air Force's MD 530F Cayuse Warrior light attack helicopters.

The first contract, a six-month extension worth \$14.5 million, continues MDHI's longstanding efforts to provide program management, and contractor logistics support (CLS) services, material, and remote operations to support the Afghan fleet. Work will take place in Mesa, Arizona; Kabul, Afghanistan; and Al-Ain, United Arab Emirates. The contract was awarded on May 28, 2021.

The second contract, worth \$29.4 million, modifies MDHI's original maintenance capabilities support contract. Under this six-month contract, MD Helicopters will provide continued maintenance, repairs, updates, and overhauls of the Afghan Air Force's MD 530F Cayuse Warrior helicopters in Mesa, Kabul, and Al-Ain. The contract was awarded on June 10, 2021.

"While U.S. forces begin the drawdown process in Afghanistan, these contracts allow us to help Afghanistan's Air Force maintain stability on their own through the continued support of their aircraft," says Nick Nenadovic, Vice President, Aftermarket and Customer Support. "This further highlights the value our government and the Afghan Air Force put on the MD 530F. It is with tremendous pride we can continue providing the highest level of support for both our government and allies."

The enhanced MD 530F Cayuse Warrior is a light armed attack helicopter respected for its power, safety, speed, agility, and unparalleled confined area capabilities. The aircraft supports a wide range of training and operational missions, providing safe, efficient multi-mission support with an increased performance profile.

About MD Helicopters Inc.

MD Helicopters, Inc. (MDHI), is a leading rotorcraft manufacturer of American Made commercial, military, law enforcement, and air-rescue helicopters. The MDHI family of rotorcraft is world renowned for its value, versatility, and performance. Commercial offerings include the MD 500E, MD 530F, MD 520N, MD 600N, and twin-engine MD 902 Explorer. The MD 530F Cayuse Warrior and MD 530G Attack Helicopter comprise the company's high-performance military offerings. A key feature of the MD 902, MD 600N, and MD 520N is the innovative NOTAR® system for anti-torque control with no tail rotor – exclusively by MDHI to provide safer, quieter performance and confined-area access capability.
