MEDIA ADVISORY

L.A. Real Estate developer supports the National Public Safety Drone Donation Program NPS-DDP.org, FoxFury Lighting Solutions and SkyeBrowse to donate a new drone kit, lighting package and accident / crime scene 3D reality software to Bell Gardens Police Department.

WHAT:

On April 21, 2022, Bell Gardens Police Department made application to the National Public Safety Drone Donation Program NPS-DDP.org for a free drone. The department explained why the drone would help protect the communities they serve. A local business owner and real estate developer, Kristi Cirtwill CEO and owner of Cirtwill Investments and founder of HoarderHomes.com contacted the NPS-DDP foundation and offered to supply a very advanced starter drone kit for this particular department. This new lifesaving technology has proven to be valuable asset to other departments across the country and is sure to help save lives and property within the Bell Gardens community. As a direct result of her generosity, two other companies that have support NPS-DDP in the past are also going to be making hardware and software donations.

WHEN: May 31, 11:00 AM

WHERE: 7100 Garfield Avenue, Bell Gardens 90201

Department Request Details:

"Drones are making the work of law enforcement agencies and first responders significantly safer and easier. That is one of the reasons the Bell Gardens Police Department recently created our first ever drone program. The mission and goal of this drone program is keep our officers safe and protect the lives of the public. The drone program will also change how we respond to a wide range of incidents and keep the public safe. For example, a drone will provide the following benefits: Save time by covering more ground, get to the scene faster, save money, provide vital information to protect lives, search and rescue operations, traffic accident scene investigations, track and locate suspects, assess dangerous situations as active shooter, hostage, and natural disaster response and recovery efforts. Therefore, the Bell Gardens Police Department is seeking funding and/or donations to purchase additional drones for our programs" said Lieutenant Camacho.

Any Public safety departments nationally may apply to receive a drone or other hardware / software from our foundation without cost or obligation To apply go to <https://nps-ddp.org/get-help/>

Specs of drone being donated: Autel Robotics / EVO2-Pro-Rugged Bundle :

Capture 6K Video & 20MP Photos

- 1" Sensor with ISO up to 12,800
- Up to 40-Minute Flight Time
- Includes Remote with 3.3" OLED Display
- 120 fps Slo-Mo at up to 2K Resolution
- Variable Aperture from f/2.8 to f/11
- 12-Sensor Obstacle Avoidance
- HD Transmission up to 5.6 Miles

Cirtwill Investments: " I am excited to donate a drone to the Bell Gardens Police Department. I met Mark Langley with NPS-DDP and was very pleased to learn about the work his non profit company does to help public safety agencies. I fully support the Bell Gardens drone program and its ability to keep their officers safer and protect the lives of the public. Cirtwill Investments is a small, woman founded, owned and operated business in Los Angeles that deals with all types of distressed properties including hoarded homes, homes with code violations, red-tagged homes, abandoned/ vacant houses, homes with drug dealers or squatters and homes with any type of biohazard. We will purchase these homes and handle all the difficulties that come with them very quickly, and work to improve the home and safety within the community." Said Kristi Cirtwill, President of Cirtwill Investments and HoarderHomes.com

SkyeBrowse: "We believe in the mission of NPS-DDP to help put life saving drone technology in the hands of public safety. We will donate a six month license to the Bell Gardens Police Department. " Said Bobby Ouyang CEO of SkyeBrowse. The SkyeBrowse Software solution allows public safety to acquire mission critical data for command staff with no advanced training required to make a highly accurate 3D model with just 1 tap in the SkyeBrowse app. Departments have cleared crime scenes in 90 seconds, instead of 3 hours. Pre-planning is made easy, a 3 minute SkyeBrowse flight has been used to place snipers at events and spot hazmat runoffs. Scenes like this are cleared 90% faster with SkyeBrowse. Government buildings are being mapped by officers flying SkyeBrowse for actionable intelligence for future active shooter situations. A six Month license to the software will be provided at no charge.

FoxFury Lighting Solutions: "We are thrilled to be working with NPS-DDP in the hopes of bringing new technology to departments that can use it to keep their communities safe" said Antonio Cugini Director of Marketing at FoxFury Lighting solutions. We will donate [saddle and two D3060](#) lights. FoxFury Lighting Solutions offers drone lighting tools for anti-collision and search and rescue operations. Innovative, powerful, and designed for small UAV technologies. Innovative Solutions for all Your Safety Lighting Needs, when seconds count and lives are on the line – FoxFury has the tools you need to save lives. Our lighting solutions are for any industry in need of portable, reliable lighting solutions.

The National Public Safety Drone Donation Program: "We are pleased to see companies of all types making donations in support of the NPS-DDP mission to help put " Eyes In the Sky For Every Department In Need"™. The generosity of these types of donations cannot be underestimated as this hardware provides life saving value in the hands of those who work so hard to protect the communities they serve. Also it provides a tremendous amount of economic benefit in saved man hours" said Mark Langley founder of NPS-DDP

We encourage private citizens and any company including public safety to contact us to recycle any unused UAV back into service. If any of the drones that we receive are not suitable for public safety we have partnered with women and drones to donate these types of drones to STEM programs across the country to help benefit youth education.
