

*******PRESS RELEASE*******

FOR IMMEDIATE DISTRIBUTION

August 27th, 2015

The *Nevada Advanced Autonomous Systems Innovation Center (NAASIC)* is hosting the **1st ANNUAL UAS SEARCH & RESCUE SYMPOSIUM** – September 14-16, 2015. The purpose is to bring together Leaders, Innovators, Early Adopters, Researches and Policy Makers specific to removing the guess work out of choosing airframes and sensors, establishing protocols and procedures while rapidly integrating UAS’s/Drones into legal, active, widespread and safe adoption into the Search and Rescue and First Responders set of available tools and technology.

We request the support and participation of Law Enforcement, First Responders, Search and Rescue, Researchers and Manufacturers in this inaugural event to take part and collaborate in an effort to establish shared fundamentals measures and quality targeted products for all parties involved. Please visit our website <http://www.unr.edu/naasic/symposium> and send a representative to this valuable and affordable first of its kind event.
