Ashland, OR

Career Opportunity for an Advanced Helicopter Operations Instructor:

Energetic, motivated and self driven.

The preferred candidate has a minimum of 5 years of experience in multidiscipline helicopter operations. A few examples of desired past experiences include a working knowledge and capability of: Hoist/Winch, Short Haul, Rescue, Tactical, Overwater and Offshore rescue, LE, Fire, Military, HEMS.

This is an instructor position and as such the candidate must have a background and capacity to work with and teach adult students at a very high level. Knowledge of computer systems, presentation programs, curriculum development and delivery are important aspects of the job. Travel to provide instruction is ongoing and lengthy at times.

This is a full-time position, which requires relocation to the Southern Oregon, area. Salary is commensurate with experience and skills. Benefits including employer paid medical, dental, vision and 401(k). Air Rescue Systems Corp. is an equal opportunity employer and all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability status or protected veteran status. Drug free environment. Successful candidates will be required to pass post-offer and random drug tests.

To apply, please submit your cover letter & resume via email to:
