

INTRODUCTION TO LAW ENFORCEMENT USE OF sUAS

Unmanned Aircraft Systems (UAS)

The Ohio State Highway Patrol is hosting a FREE seminar for any Public Safety Agency in Ohio using unmanned aircraft systems.

Get prepared for the FAA part 107 written test with a start to finish course for potential UAS operators.

Monday – Thursday, January 9-12, 2017

8:30 am – 4:30 pm each day
OSHP Training Academy
Leadership Hall
740 E. 17th Avenue
Columbus, OH 43211

Presenter: Alan Frazier

Associate Professor
University of North Dakota's
John D. Odegard School of Aerospace Sciences

What, When, and Where:

On Monday, January 9th, 2017 the OSHP will be hosting a 4-day seminar on Unmanned Aircraft Systems (UAS) for any Public Safety Agency in Ohio. The event will be held in the Leadership Hall of the OSHP Academy. Lunch will be provided. Day one will be an overview of UAS operations and how they relate to Public Safety. Day 2-4 will be a start to finish preparation course for potential UAS operators to prepare them for the FAA part 107 written test.

Who is speaking?

Nationally recognized Subject Matter Expert in UAS operations for the Airborne Law Enforcement Association; Associate professor for the University Of North Dakota's John D. Odegard School of Aerospace Sciences; Over 36 years of law enforcement experience currently a Grand Forks County Deputy Sheriff (North Dakota)

Who should attend?

Any agency who is presently operating or is considering the startup of UAS operations.

****RSVP to Lt. Justin Cromer at (614) 466-4468 or JWCromer@dps.ohio.gov by Saturday, December 31, 2016****
