

USHST

United States Helicopter Safety Team

Monthly Safety Report

August 2023

The USHST is a regional partner to the Vertical Aviation Safety Team (VAST).

USHST GOAL: Reduce the 5 year average fatal US helicopter accident rate to **0.55 fatal** accidents per 100K hrs by **2025**

USHST Vision: A Civil Helicopter Community with Zero **Fatal** Accidents

Safety by the Numbers!

Metric	2019 - 2023	2018 - 2022
Avg Fatal Acc Rate	0.72	0.77
Avg Accident Rate	4.04	4.17
Year To Date	Current Year (CY23)	Previous Year (CY22)
Fatal Accidents	9	12
Accidents	59	78
Fatalities	20	21

Average number of days between fatal accidents:

- 2019: 16 days
- 2020: 18 days
- 2021: 17 days
- 2022: 21 days
- 2023: 22 days

Longest time between fatal accidents (past 5 yrs):

107 days (2020)

Fatal Accident Counter

14 : 04 : 23 : 56
Days : Hours : Mins : Secs

Each year the U.S. helicopter industry safely flies approx. 3 million flight hours and **every** second of **every** flight must be handled with professionalism.

Did "YOU" Know?

In the US there are **12,000 +** helicopters, **32,000 +** helicopter pilots and over **292,000** aircraft mechanics!

The USHST has identified the following industries for **OUTREACH**:

**Personal/Private,
Helicopter Air Ambulance (HAA),
Commercial and Aerial Application**

Your participation in joining our vision of zero fatal accidents is important to us. To determine how your interests best align with active USHST efforts, please click the link below to complete the form and submit.

Safety Enhancement Quick List

U.S. Helicopter Safety Team

Helicopter – Safety Enhancements
Our Vision: A civil helicopter community with zero fatal accidents

Loss of Control - Inflight (LOC-I), Unintended Flight into IMC (UIMC), Low Altitude Operations (LALT).

USHST continues to work on the implementation of Helicopter - Safety Enhancements (H-SEs) developed through data-driven analysis of 104 fatal accidents. The H-SEs use Outreach, Policy, Technology/Equipment, and Training to reduce fatal accidents in these categories.

US Helicopter Safety Team New Helicopter Safety Enhancements (H-SEs)

23-01: Promote **conservative go/no-go decision making** (includes performance planning)

-HAI's Safety Working Group released some early "primer" material on the topic that they've socialized through Rotor Daily, and they are working on a formalized work plan for where they'd like to go with it over the next year.

23-04: Improve **fatigue awareness** and risk mitigation of **scheduling factors** leading to fatigue.

-Pulsar Informatics, Inc is leading this effort with support from AMOA and Delta P. They've developed an initial work plan.
