## **Precision Aviation Group is Recognized by Airbus Helicopters Inc. with Top Supplier Award**

**Atlanta, GA – November 12, 2019** – Precision Aviation Group, Inc. (PAG), a leading provider of products and value-added services to the worldwide aerospace and defense industry has received an award from Airbus Helicopters Inc. (AHI) for achieving 100% On-Target Quality Performance, recognizing the company's performance in support of Airbus Helicopters' AS350, UH-72A, EC-135 and EC-145 platforms.

The award was presented in Grand Prairie, Texas during the Airbus Helicopters North America Supplier Conference and was based on the qualitative and quantitative measures in key areas such as quality, performance and on-time deliveries which are monitored by AHI.

"Each of our suppliers plays a critical role in AHI's overall strategy by offering reliable and cost-effective solutions," said Martin Gohr, Airbus Helicopters' Senior Director of Procurement. "We are excited to recognize Precision Accessories & Instruments, who has individually done a tremendous job delivering quality components, 100% On-Target which allows AHI to support their customers."

"Helping our customers maintain "mission-ready" by delivering quality products and MRO services has always been a top priority at PAG," said Ketan Desai, PAG Vice President Sales & Marketing. "Being recognized as a top supplier by AHI is particularly a point of pride for us. This award is a testament to the dedicated, highly skilled and customer focused workforce we have at PAG's nine strategically located repair stations."

### **About Precision Aviation Group (PAG)**

Precision Aviation Group (PAG) is a leading provider of products and value-added services to the worldwide aerospace and defense industry. With 10 locations, 9 Repair Stations and more than 280,000-square-feet of sales and service facilities in the United States, Canada, Australia, Singapore and Brazil - PAG uses its distinct business units and customer-focused business model to serve aviation customers through two business functions – Aviation Supply Chain – and its trademarked Inventory Supported Maintenance, Repair and Overhaul (**ISMRO**®). PAG provides MRO and Supply Chain Solutions for Fixed and Rotary-wing aircraft. PAG subsidiaries have MRO capabilities on over 25,000 products, including accessories, avionics, dynamic components, fuel accessories, hydraulics, instruments, starter/generators, wheels/brakes, and flat panel displays ([www.precisionaviationgroup.com](http://www.precisionaviationgroup.com)).

### **About Airbus**

Airbus is a global leader in aeronautics, space and related services. In 2018 it generated revenues of € 64 billion and employed a workforce of around 134,000. Airbus offers the most comprehensive range of passenger airliners. Airbus is also a European leader providing tanker, combat, transport and mission aircraft, as well as one of the world's leading space companies. In helicopters, Airbus provides the most efficient civil and military rotorcraft solutions worldwide ([www.airbus.com](http://www.airbus.com)).
