## **L3Harris Begins Delivering WESCAM MX™ Imaging Systems for US Special Operations Aviators**

### **Highlights:**

- Supports the U.S. Special Operations Command (USSOCOM) sensor modernization strategy
- Leverages the company's proven sensor performance and capability
- Reaffirms L3Harris' position as a key USSOCOM sensor supplier

**MELBOURNE, Fla., October 10, 2022** — L3Harris Technologies (NYSE:LHX) has begun delivering its [WESCAM MX™-10](#) and [WESCAM MX™-15](#) electro-optical/infrared (EO/IR) and laser designator sensor systems to USSOCOM's Special Operations aviators.

The deliveries support the USSOCOM's Improved Rotary-wing Electro-optical/Infra-red Sensor modernization strategy, providing the special operations aviators with proven sensor performance and capabilities for use in special operations aviation platforms.

"Our sensor systems provide warfighters with advanced multi-spectral imaging and designation capabilities," said Kristin Houston, President, Electro Optical, L3Harris. "Equipping the USSOCOM aviators with this state-of-the-art, operationally proven technology enables them to accomplish the very toughest missions in all environments, anywhere in the world, day or night."

L3Harris [WESCAM MX-Series](#) products have successfully supported USSOCOM aviation programs since 2006 and are active in more than 80 countries. Operating across air, land and maritime domains, these intelligence, surveillance, reconnaissance and targeting systems support more than 200 different platforms.
