December 21, 2016

Air Rescue Systems Corp (ARS) receives FAA TSO C-167 approval for the ARS 338 Heli-Ops Harness.

ARS is proud to announce FAA approval (TSO C-167) of the 338 Heli-Ops Personal Carrying Device System (PCDS). This Class III harness delivers uncompromised safety and end-user, ease of use through a multitude of advanced helicopter operations disciplines. The 338 Heli-Ops Harness excels at hoist/winch, short haul, skid insertion/extraction, and heli-rappel operations to name a few.

The ARS 338 Heli-Ops harness is functional, comfortable, durable, and carries the distinction of being the lightest Class III, TSO C-167 PCDS harness made in the world. At just 3 lbs. 15 oz., the 338 Heli-Ops Harness is unrestricting and moves with the wearer through these demanding operations.

Tested and vetted through thousands of field insertion, extraction and rescues, the best in modern design, manufacturing and certification comes to life in the ARS 338 Heli-Ops Harness.
