

Aero Dynamix, Inc.

FOR IMMEDIATE RELEASE

February 27, 2019

Aero Dynamix Inc. (ADI) today announces another aircraft model and STC added to their long list of NVG certifications. The FAA has issued STC# SR09899AC to ADI for the Bell 505 Night Vision Compatible Lighting System which is comprised of internal avionics modifications and newly manufactured ELP's. "As this new platform is gaining popularity in the market place we are excited to be able to offer our customers the best NVIS lighting solution possible." said ADI's Chief Operating Officer Tonka Hufford. "Our team is very proud of this modification and once again provided the superior solution in both night and day time instrument readability for our customers."
