HELICOPTER TACTICAL APPLICATIONS COURSE-CREW MEMBER

NOV 30TH-DEC 1ST 2020

**AIRBORNE TACTICAL
TRAINING SOLUTIONS**

Airborne Tactical Training Solutions, Inc. announces Open Enrollment for our “Helicopter Tactical Applications Course Crew-Member”. This is a Two (2) day /sixteen (16 Hr.) course that is designed to provide public safety professionals a strong foundation when working with, in, and around rotor-wing aircraft (Helicopters). The course provides fundamentals in helicopter safety, communication / coordination (CRM) aircraft takeoff, inflight and landing, as well as safe insertion and extraction fundamentals. The HTAC-CM course is designed for individuals wishing to join any aviation unit as a (TFO) Tactical Flight Officer, Air-Crew member or Individuals seeking to become an LE special operations officer, or those interested in increasing their knowledge and capabilities in the safe tactical application of the rotor-wing platform in the public safety arena.

Course Dates: November 30th - December 1st
Location: Immokalee Florida / IMI FORCE CENTER
