### **CNC Technologies to Provide Full Mission Suite Integration for the Florida Fish and Wildlife Conservation Commission Beechcraft King Air 200**

**FLORIDA (July 26, 2024)** – CNC Technologies, an aviation technology and wireless communications company serving the law enforcement, military and government markets, has been contracted to provide a law enforcement mission suite plus integration for the Beechcraft King Air 200 operated by the Florida Fish and Wildlife Conservation Commission (FWC).

CNC will equip the King Air 200 with a Teledyne FLIR Star SAFIRE 380X-HD camera/thermal imager as well as a Tactical Flight Officer (TFO) console containing a Shotover ARS-750 mapping system and MacroBlue monitors. The completion work will be performed by AeroBrigham in Decatur, Texas, who has previously performed completion work on two FWC Bell 505's and one Cessna 208 Caravan.

CNC will provide their industry-leading 24/7/365 Service, Support and Training to FWC staff to support the deployment of the complex aircraft mission suites. The advanced technology in the aircraft will assist FWC in performing a wide variety of wildlife, law enforcement and search & rescue missions across the State of Florida.

“We are thankful to be continuing our work with FWC,” said Ed Van Winkle, Vice President of Law Enforcement Sales and OEM Projects at CNC Technologies. “The completed King Air 200 will complement their existing aircraft fleet, and we look forward to supporting their missions into the future.”

#### **About CNC Technologies**

CNC Technologies is an aviation technology and wireless communications company serving the law enforcement, government and military markets. Providing custom aerial surveillance, data transmission and counterterrorism solutions, the CNC team brings decades of experience deploying local, national and global communications networks for the world's most demanding operators. CNC works with clients around the globe, delivering customized mission suite solutions tailored to match each organization's specific mission requirements and backed by unparalleled 24/7 service and support. The company is online at [www.cnctechnologies.com](http://www.cnctechnologies.com).
