DART Aerospace first to produce and certify R66 heli-utility basket

Hawkesbury, Ontario - March 29th, 2017 - DART Aerospace, a privately owned international aerospace company, has officially released the first utility basket STC on the market designed for the Robinson R66 Turbine helicopter.

The DART Heli-Utility-Basket™ is built from corrosion-resistant stainless steel and features a simple, safety improving, self-locking handle that assures lid closure and secures cargo during flight.

The installation of this product is approved on a TCCA issued STC and is available for order in any regions where this approval is accepted.

FAA and EASA STC approvals for the R66 heli-utility basket are expected shortly. Pre-orders are available – contact your sales representative.
