

Ukrainian Helicopters Aviation Company selects Becker Avionics' digital ICS

July 7, 2016 - Miramar, FL

Becker Avionics is pleased to announce that Ukrainian Helicopters Aviation Company has signed a contract for the retrofit of their 28 multipurpose Mi-8 MTV-1 medium lift helicopters with the Becker DVCS 6100 Digital Audio System.

"We are extremely excited that Ukrainian Helicopters has selected Becker Avionics for its digital communications needs" said Thomas Terschlusen, Director of Sales and Marketing with Becker.

The multipurpose Mi-8 MTV-1 medium lift helicopters are capable of performing a wide variety of air operations. Ukrainian Helicopters Aviation Company, Ukraine's largest helicopter operator, has played a pivotal role in global humanitarian, stabilization, and peacekeeping missions for more than a decade.

Becker Avionics has delivered the first Digital Voice Communication System (DVCS) system to Ukrainian Helicopters. The DVCS provides many advantages over analogue systems. The DVCS provides access to eight communication channels (expandable up to 16), eight navigation channels and remote capability for to up to six pilots/operators and up to 12 passengers. The crystal clear communications are well beyond that achievable with analogue systems.

The system is fully programmable by the aircraft operators, allowing each DVCS system to be configured specifically to that unit's needs without any additional wiring, switches or other modifications. Adding or removing function to the system, new radios or any configuration change can be done simply through a provided computer program.

Ukrainian Helicopters will showcase the first upgraded Mi-8 MTV-1 medium lift helicopters with the Becker DVCS 6100 Digital Audio System during the Farnborough Airshow from 11 to 17 July.

Becker invites all attendees to visit this first upgraded Mi-8 MTV-1 during the event.

About Becker Avionics

For nearly 60 years, Becker Avionics has developed, manufactured and distributed high-tech communication, navigation, surveillance and search and rescue equipment for airborne and ground applications. Becker is a leader in digital avionics technology, setting the standard in customer-centric, state-of-the-art airborne and ground-based solutions.

Becker has proudly provided world class products for general aviation, ATC, law enforcement, military and OEM organizations including Airbus, Airbus Helicopters, Bell Helicopter, BAE Systems (British Aerospace), ATR, CASA, RUAG, Xi'an Aircraft Corporation, Finmeccanica, Pilatus Aircraft, German Air Force, Navy and Army, German Border Patrol, German Police, Austrian Army and Police, Swiss Air Force, Dutch Police, Security Civil, Irish Air Corps, Egyptian Navy, Indonesian Navy, Portuguese Air Force, U.S. Army, U.S. Air Force, U.S. Navy and U.S. Auxiliary Civil Air Patrol.
