PRESS RELEASE

Meeker-Airfilm are pleased to announce we have received both FAA STC and PMA for our new R44 and R66 light weight nose mount. The nose mount requires no permanent modifications to the airframe and fits over the existing landing light cover. The maximum payload is limited to 50lbs and is intended for various camera systems, searchlights, lidar, antennae etc. EASA certification will be obtained in early 2018.

For further information, please contact us
meekeraviation@yahoo.com .
