

PRESS RELEASE – FOR IMMEDIATE RELEASE

Metro Aviation Completion Center receives EASA seal of approval

04 JUNE 2019 – Shreveport, La. –

The European Union Aviation Safety Agency (EASA) has issued a U.S. Approval Certificate to Metro Aviation as a Part-145 maintenance organization. EASA is responsible for the certification of aircraft in the European Union (EU) and for some European non-EU countries.

“With the addition of this rating, we will be able to better support repair approval for our EU customers who are using any of the Metro Aviation, Inc. STC/PMA products,” said Metro Aviation Managing Director Milton Geltz.

Metro was required to meet four steps of the certification process to include technical familiarization and certification basis, establishment of the certification program, compliance demonstration and technical closure/issue of approval. Metro is a worldwide provider of completion services and has aircraft or aircraft parts on six of the seven continents.

About Metro Aviation:

Metro Aviation, Inc., based in Shreveport, Louisiana, United States is a worldwide provider of completion services for all missions and types of helicopters and specializes in the EC135 and EC145 with several Supplemental Type Certificates (STC) developed by the company for these and other aircraft. Metro is an FAA approved repair station, approved Airbus (Eurocopter) Service Center and FAR Part 135 air medical operations provider at several locations across the United States. The company is privately held and is one of the largest traditional air medical providers in the country.
