

Seeker Aircraft, Inc. Announces Partnership with Moroccan based Cyber Security Technology provider, Nevo Technologies, LLC.

Surveillance aircraft company expands into new market in Morocco

(Albuquerque, N.M.) Seeker Aircraft, Inc. has announced that Seeker, a purpose-built light observation aircraft, specifically designed and developed for intelligence, surveillance and reconnaissance (ISR) missions, will now be available for purchase from next generation IT Distribution company, Nevo Technologies, with headquarters in New Jersey and offices in Morocco. This partnership marks a new expansion effort by Seeker Aircraft into Northern Africa and, specifically in Morocco.

“Nevo Technologies is well suited to represent Seeker in our efforts to expand marketing, sales and services into Morocco”, said Ed Lundeen, President of Seeker Aircraft. We are pleased to have formalized this relationship, knowing Nevo’s expertise in providing the best in class customized national security solutions, the Seeker is a perfect match for Nevo to market the unique and highly-specialized qualities of the aircraft.”

Nevo Technologies seeks to expand their market offering with the addition of the very affordable Seeker aircraft for not only ISR missions but also for defense, law enforcement and government requirements on the African continent. Nevo Technologies’ current offerings include Cyber Security and Next Generation IT services for Defense and Government clients.

Suzanne Moyer-Baazet, Vice President of Nevo Technologies, stated, “We are pleased to have this opportunity to represent Seeker in Morocco as we believe the Seeker offers an ideal, low acquisition and low operating cost, manned aviation solution that can operate under austere conditions. With our background, business experience and knowledge of providing turn-key solutions for military, law enforcement, civil aviation and border patrol we believe Nevo Technologies can be highly successful in marketing, selling and supporting the Seeker.”
