

## **S.A.F.E. Structure Designs Awarded Contract to Supply UH-60 Maintenance Platforms to Army National Guard**

**Las Vegas, NV – 2/11/2025** – S.A.F.E. Structure Designs, a leader in the design and manufacturing of creative and customizable solutions for Department of Defense, has been awarded a \$3.5 million contract to supply a full wrap-around custom maintenance platform for the UH-60 Black Hawk Sikorsky helicopter for the U.S. Army National Guard. This contract will cover 10 different locations across the United States and was procured through the Yulista Integrated Solutions Prime Vendor contract.

Under this agreement, S.A.F.E. Structure Designs will provide a tailored, state-of-the-art platform designed to ensure the safety and efficiency of UH-60 Black Hawk helicopter maintenance operations. The custom platform will be delivered to 10 Army National Guard bases, enhancing the serviceability of these critical helicopters across the nation. “We are thrilled to have been selected for this high-profile contract,” said Johnny Buscema, President and CEO of S.A.F.E. Structure Designs. “Our custom maintenance platforms are known for their durability, safety features, and user-centric design, and we are blessed to have been selected to provide the Army National Guard with equipment that supports their critical mission. This project marks a significant milestone in our continued partnership with the U.S. military.”

The UH-60 Black Hawk helicopter is an integral part of the Army National Guard’s fleet, used in a variety of missions including troop transport, medical evacuation, and cargo lift operations. The custom-designed maintenance platforms will facilitate easier and safer repairs, inspections, and maintenance of these vital helicopters, ensuring they remain operational for mission readiness.

The contract leverages the Yulista Integrated Solutions Prime Vendor Contract, a trusted program for sourcing reliable solutions for U.S. military and defense needs. Through this partnership, S.A.F.E. Structure Designs will continue to provide top-tier service and innovation to military personnel at bases nationwide.

S.A.F.E. Structure Designs is a leading provider of innovative custom equipment used by military and commercial organizations. Known for their engineering excellence and commitment to safety, S.A.F.E. products are designed to improve the efficiency and safety for the war fighter. The company has a proven track record of providing high-quality, customizable solutions for complex challenges.

The dynamic and visionary CEO of S.A.F.E. Structure Designs, Johnny Buscema, founded S.A.F.E. in 2016. Under his leadership, S.A.F.E. has experienced significant growth, gaining a reputation for delivering high-quality, innovative solutions that prioritize safety and efficiency for DoD requirements. However, Johnny's professional journey is more than just a story of business success. At the heart of his accomplishments is a deep and unwavering faith in Jesus Christ. Johnny attributes his success, both personally and professionally, to God's guidance, strength, and grace. He believes that every achievement is a direct result of God's favor, and he remains committed to honoring Jesus in both his work and daily life. Johnny's leadership is rooted in his strong values of integrity, service, and faith, which have shaped the culture at S.A.F.E. Structure Designs. He sees his role as CEO not just as a business opportunity but as a chance to make a positive impact in the lives of employees, customers, and the wider community. Through his leadership, S.A.F.E. has fostered an environment that encourages innovation, collaboration, and a shared sense of purpose—one that aligns with his Christian values. In his own words, Johnny frequently shares how his faith has been his anchor, guiding him through challenges and helping him maintain a sense of humility despite the company's accomplishments. He is passionate about giving back and uses his platform to inspire others, especially those who may be facing obstacles in their own lives or careers. Johnny's commitment to excellence, compassion, and service is not just reflected in the success of S.A.F.E. Structure Designs but also in his dedication to positively influencing others. Through his leadership and faith-driven approach, Johnny is proving that with Jesus Christ's guidance, there is no limit to what can be achieved. Johnny continues to lead S.A.F.E. Structure Designs with a heart of gratitude, always striving to honor God in every decision he makes whether facing adversity or experiencing an achievement.
