

Aero Products Component Services LLC. and Digital AirWare Announce Strategic Partnership

Show Low, AZ — February 20, 2025 — Aero Products Component Services, LLC. (APCS) and Digital AirWare (DAW) are excited to announce their strategic partnership aimed at simplifying parts ordering and forecasting. This collaboration will provide the industry and mutual customers with an efficient solution for demand planning and forecasting parts reducing downtime for the operators.

Digital AirWare, recognized for its aviation management software and fast-growing network, will integrate its powerful software while using APCS's extensive inventory and OEM relationships to have the “right parts at the right place and the right time”. This integration will allow customers to effortlessly order, preorder, or reserve new or overhauled parts through a user-friendly interface. APCS, known for its exceptional service and extensive inventory, will stock and supply parts based on the orders coming through DAW’s software suit.

Key Benefits of the Partnership:

- **Streamlined Parts Purchasing:** Customers can now utilize DAW's software to directly purchase parts from APCS's vast inventory, ensuring quick and hassle-free transactions.
- **Enhanced Forecasting:** The integrated platform will provide customers with advanced forecasting tools to better plan and manage their parts inventory to prepurchase and reserve parts from APCS.
- **Reduced Downtime:** By simplifying the parts purchasing process, the partnership will help operators minimize downtime and keep their aircraft operational.

"We are thrilled to partner with Digital AirWare to offer our customers an unparalleled level of convenience and efficiency in managing their aviation maintenance needs," said Mike Hannahs, President at Aero Products. "This collaboration underscores our commitment to providing top-notch service and support to our customers."

"We are excited to partner with a long-time industry and trusted leader in APCS. We believe that this partnership with APCS will greatly benefit our customers by providing them with an integrated solution for their parts purchasing and maintenance needs at a cost savings," said Joaquin DeMoreta, President at Digital AirWare. "Our goal is to enhance the overall efficiency and effectiveness of an aviation department with our growing vast network of one stop solutions for our customers. We are grateful and appreciative to APCS of this partnership and the value we bring to the industry together. "
