Spectrum Aeromed Names QAI Aviation Authorized Installation Center

(May 5, 2025, Pittsburgh, PA) QAI Aviation (QAI) announced today that the company has been named an Authorized Installation Center for Fargo, North Dakota based Spectrum Aeromed on their advanced air medical equipment and solutions.

“Spectrum Aeromed is known around the world for their customized medical interiors for both helicopters and fixed wing operations,” said President Robert Sieber. “It is an honor to be named their first Authorized Installation Center for helicopters.”

Over the years, Spectrum Aeromed and QAI Aviation have worked together on numerous projects, integrating customized medical interiors into various rotor-wing platforms. QAI Aviation’s extensive expertise in helicopter maintenance, repair, and overhaul (MRO) services ensures that operators receive seamless, high-quality installations that align with the specialized requirements of air medical operations.

“We are excited to officially welcome QAI Aviation as an Authorized Installation Center,” said Chase McCown, President of Spectrum Aeromed. “Their expertise and dedication to quality make them a valued partner, ensuring our customers are in good hands. This designation is another step forward in our mission to provide high-quality, certified solutions that help save lives.”

By streamlining processes between the two companies, installations can be completed more efficiently, minimizing aircraft downtime for operators. With a shared commitment to quality and customer support, Spectrum Aeromed and QAI Aviation provide operators with a trusted, end-to-end solution for their air medical configuration needs.

QAI has a strong track record in aircraft modifications and completions, ensuring seamless installation of Spectrum Aeromed’s air medical interiors. QAI Aviation shares Spectrum Aeromed’s commitment to supporting lifesaving missions, ensuring that customers receive specialized solutions tailored to the unique requirements of air medical transport.

“Although we have worked with Spectrum Aeromed for years, this designation further solidifies our relationship with the team and Spectrum and our commitment to their customers. We are looking forward to partnering on future installations,” said Sieber.
