COURSE DESCRIPTION:

Learn how to safely and lawfully use these life-saving strategies for counter-drone operations. Drone attacks are occurring almost daily across the globe. It is only a matter of time until they occur here in the United States. These low-cost, high-tech, and easily weaponized aerial vehicles can cause terror just about anywhere. This 2-day course provides students with the latest technology and tactics to prevent and respond to a drone attack. Students will be able to:

- Explain the legal issues governing law enforcement conduct and investigations
- Describe how to obtain legislation for enforceable drone laws
- Conduct effective investigations on criminal drone activity
- Use counter drone measures that include emerging technology for detection
- Use counter drone measures that include emerging technology for interdiction
- Describe drone weaponizing techniques
- Identify potential drone threats

Maximum Enrollment: 30

INTENDED AUDIENCE: This course is intended for Public Safety Aviation personnel assigned to, oversee or manage a UAS Program at their agency or are involved with Tactical or Security Operations Teams. sUAS experience is recommended but not required.
