Updated 04/30/2026

Disclaimer: As many of our instructors are actively involved in public safety aviation, this agenda is subject to change based on instructor availability at the time of the event.

COURSE OBJECTIVES: This course is designed to provide both the newly assigned and/or experienced aviation unit managers the latest information relative to aviation unit management in support of public safety operations. The student will obtain valuable guidance from experienced public safety professionals that will allow them to effectively and efficiently manage and lead their agency's aviation unit. Specific topics include aviation safety, personnel selection, organization, training, creative finance and budgeting, legal responsibilities, maintenance and SOP development – all geared toward what a public safety aviation unit manager must know. Successful completion requires attendance at all 24 hours of classroom courses. **Maximum enrollment: 70**

INTENDED AUDIENCE: This course is intended for public safety command staff, managers and unit supervisors responsible for management and supervision of public safety aviation units.
