PSSA Webinar

# Protecting 4.9 GHz for Public Safety

**Friday, January 19, 2024, 10:30 PT | 11:30 MT | 12:30 CT | 1:30 ET**

The Public Safety Spectrum Alliance (PSSA) is an alliance amongst the nation's leading public safety leaders and associations, promoting unity within the public safety community. Our goal is to raise awareness, educate, and protect public safety communications needs nationwide, including the use of the 4.9 GHz Public Safety Band. The PSSA remains committed to representing public safety and helping decision-makers understand the vital nature of this spectrum to our community.

We invite you to join PSSA leadership to learn about current efforts to continue to protect the 4.9 GHz Band for public safety. Learn about recent filings, key decisions impacting these efforts, and how you can support PSSA's initiative to protect the 4.9 GHz band for public safety.
